

# SYMBIOSIS

## the art of nature

Inspired and guided by  
multi-media artist cj fleury  
with Ilse Turnsen

We honour  
**EARTH DAY 2024** with  
this inspiring installation,  
developed in collaboration  
with community members  
from all six municipalities in  
the MRC des Collines-de-  
l'Outaouais.

Consider how your unique  
contribution will ensure a  
healthy community forest for  
future generations.

**Reflect** on the gift of the  
trees which breathe with  
us in each moment.

**Look** for the many ways  
that Mother Earth shares  
herself abundantly to  
sustain your life every day.

**Cherish** the  
interconnectedness with  
fellow beings in all your  
decisions and activities.

**Celebrate** and care for  
the rich biodiversity of our  
remarkable planet.

### FOREST EXPERIENCE

video by **Gillian Kirkland** with drone photography from  
**Julien Maisonneuve** and original score by **Esmerine**
